

Magnet-Gelenkstativ

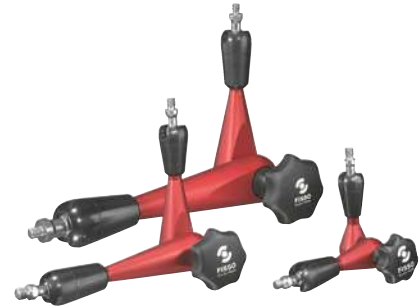

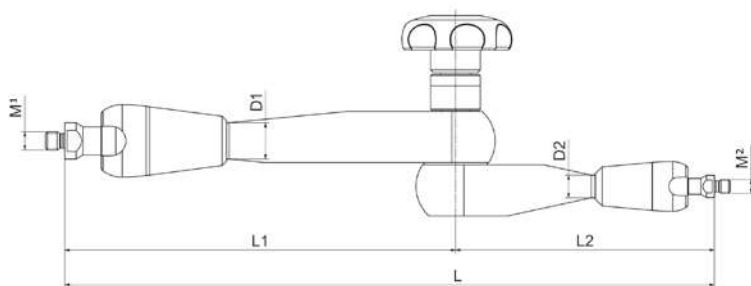

Individuelle 3D-Mess-Gelenkstative können aus Fisso-Einzelkomponenten, entsprechend den spezifischen Kundenbedürfnissen, zusammengestellt werden. Die Dimensionierung der Gerätefüße wird dabei auf die Gelenkstativ-Grösse abgestimmt.

Magnetic articulated gauging arm

Individual 3D articulated gauging arms can be assembled from single Fisso components to meet specific customer requirements. The dimensions of the unit's base are matched to the size of the articulated arm.
