

Base components

Attachable bases for build-up module connection

	APPLICATION	PRODUCT LINES
<p>Part No.: K551212 Weight 107 g</p> <p>Adapter plate Made of hard-anodised Aluminium. Adapter plate for setting up multiflex^{profile} and build-up columns K551213 and K551214 on base plates.</p> 		<p>eco-fix eco-fix^{plus}</p>
<p>Part No.: K551213 L=255mm Weight 1600 g</p> <p>Part No.: K551214 L=505mm Weight 3150 g</p> <p>Build up column Made of hard-anodised aluminium, with connecting threads M6.</p>  <p>For setting-up the column on base plates, please use adapter plate K551212</p>		<p>eco-fix eco-fix^{plus}</p>
<p>Part No.: K550597 Weight 563 g</p> <p>Build-up cuboid For the connection of build-up modules on multiflex profiles and base plates. Can also be used as an alternative to cylindrical build-up columns on the base plate.</p>  <p>For stable connection to our 50mm grid profiles use: K551136 and K551158</p>		<p>eco-fix eco-fix^{plus}</p>
<p>Part No.: K550601 Weight 290 g</p> <p>Build-up plate For the connection of build-up modules on multiflex profiles and base plates. Can also be used as an alternative to cylindrical build-up columns on the base plate.</p>  <p>For stable connection to our 50mm grid profiles use: K551136 and K551158</p>		<p>eco-fix eco-fix^{plus}</p>
<p>Part No.: K551121 Weight 260 g</p> <p>Swivel plate for multiflex^{profile} For the mounting of brackets or columns in any angle in the plane or in the room</p>  <p>For stable connection to our 50mm grid profiles use: 551136 and K551158</p>		<p>eco-fix eco-fix^{plus}</p>
