

Torque tester SENSOTORK®

7707-2W

Art.No. **96521072**

GTIN **4018754155781**

Model **7707-2W**

Label.

Electronic workshop tester SENSOTORK No.7707-2W ²⁾ N·m

Features.

Electronic testing device for torque wrenches, consisting of:

- Transducer (patented)
- Bracket
- Display device (DBGM)
- Stand for display device (with 1.5 m cable)
- Spiral cable
- Power supply (110 V-230 V with interchangeable socket adapters) or direct connection to 12 V car electrical system
- Square drive adapter (No. 7707-2W, No. 7707-2-1W, No. 7707-2-2W, No. 7707-3W)
- Mounting kit for horizontal and vertical test positions
- For clockwise and counter-clockwise measurements
- Measurement units: N·m, ft·lb, in·lb
- The easily interchangeable transducers are attached to the holder with a QuickRelease safety lock.
- Low transverse forces due to flat transducers
- Automatic detection of transducers
- Versatile and easy to use with horizontal or vertical checking positions and variable display positioning
- Additional stand with 1.5 m cable to hold the display for better optical tracking when testing long torque wrenches
- Particularly large measurement range from about 2% to 100% of the nominal value
- Software No. 7759-4 including USB adapter and phone jack cable allows the measured values to be transmitted to a PC (no additional external power source, power from the PC)
- When recalibrating the individual transducers, the test equipment remains operational on site
- Wide range of applications (-20°C to +60°C)
- Complies with DIN 51309, Class 2 and DKD-R 10-8
- With certificate
- Delivered in a sturdy plastic box

QuickRelease

Quick change and secure hold of the various transducers with the QuickRelease safety lock

Interchangeable square adapters:

Interchangeable square adapters for different drive sizes are integrated in the mounting block for easy access
